

WHEELED FIRE EXTINGUISHERS

Quality is Behind the Diamond®

WHEELED FIRE EXTINGUISHERS FROM AMEREX

DESIGNED AND
MANUFACTURED
IN THE USA

The ***Quality Behind the Diamond*** is a dedicated community of professionals working together to create top-tier fire life safety products. Since 1971, our unwavering commitment to quality, service, and innovation has been unparalleled.

Our heavy-duty wheeled units provide greater extinguishing capacities compared to hand portable fire extinguishers, making them ideal for high-hazard fires requiring a swift response. They offer long-range coverage with a quick-opening valve and are highly mobile, allowing for operation by a single person. Designed for durability, all Amerex wheeled extinguishers offer superior reliability, corrosion resistance, and affordable maintenance costs.

Amerex wheeled units, available in various sizes and capacities, are deployed worldwide in places like military bases and airports.

Longer life, lower cost and the best warranty in the industry—**that's quality behind the diamond.**

All Amerex Fire Extinguishers comply with the recommendations of the **National Fire Protection Association** and are tested and rated by **Underwriters Laboratories** or **FM Global** to **UL Standards**. All extinguisher nameplates contain the necessary HMIS information to comply with national and local OSHA requirements.

For more detailed product and ordering information, visit webstore.amerex-fire.com.

WHERE TO USE

Amerex manufactures a variety of hand-portable and wheeled fire extinguishers, both “compliance” (code required) and “specialty” types.

“Compliance” extinguishers are designed to meet and exceed state or local fire protection requirements. “Specialty” extinguishers are intended for use on particular types of hazards, so they should be placed in close proximity to the specific hazard they are meant to protect. It is natural for a person to use the extinguisher located nearest to a fire. The most current issue of NFPA-10 should be consulted for minimum recommended fire extinguisher types, placement, and travel distances. Your

local Amerex Fire Equipment Distributor is professionally equipped to evaluate and implement these recommendations. All “Pictograms” are detailed below and should be reviewed with all who might be expected to use a fire extinguisher. Everyone should be familiar with these picture symbols that identify the types of fires on which they may be used. The international sign system diagonal red slash indicates a potential danger if the extinguisher is used on that particular type of fire hazard.

CLASSES OF FIRE				Types of Extinguishers	
Class A	Ordinary combustibles	Wood, paper, rubber, fabrics, and many plastics		Class A	
Class B	Flammable liquids & gases	Gasoline, petroleum greases, tars, oils, oil-based paints, solvents, alcohols, propane, and butane		Class A:B	
Class C	Live electrical equipment	Fires involving live electrical equipment		Class A:B:C	
Class D	Combustible metals or combustible metal alloys	Magnesium, titanium, zirconium, sodium, lithium, and potassium		Class A:C	
Class K	Fires in cooking appliances that involve combustible cooking media	Cooking oils and animal fats		Class B:C	
				Class D	
				Class A:K	

HOW TO USE

All Amerex extinguishers are furnished with a detailed “Owner’s Manual” containing valuable information on the installation, use, and maintenance of the extinguisher. The extinguisher nameplate contains specific information on “HOW TO USE” the particular extinguisher. The label instructions vary slightly according to type and size. Potential operators should be familiar with the instructions on any extinguisher they might be required to use.

STORED PRESSURE

495 P/N 05636

488 P/N 10488

497 P/N 06181

490 P/N 10490

FEATURES

- Brass hose fittings
- Quick-opening valves
- Live swivel on discharge valve
- Brass valve—chrome plated on 125 lb. models
- Integral lift loops on 125 lb. models
- Heavy-duty steel cylinder, carriage, hose rack
- DOT/TC cylinders
- UL/ULC label with QR code
- Large instruction pictogram
- Chrome-plated brass fill cap on 125 lb. models
- Large fill opening on 125 lb. models
- Stainless-steel fasteners
- Stainless-steel gauge guard on 125 lb. models
- 6-Year Warranty

CONFORMS TO TEST STANDARDS:
CAN/ULC-S504 - UL 299 &
CAN/ULC-S508 - UL 711

50 & 125 lb. Stored Pressure—ABC and PURPLE K Dry Chemical

These industrial stored pressure extinguishers are available in a choice of two sizes and chemical options. The carriage design on these extinguishers provides protection for the agent cylinder as well as a well-balanced platform for transportation and operation. The narrow width and easy rolling semi-pneumatic wheels allow one person movement through narrow aisles, doorways, and in confined areas. Chemical and pressure is sealed in the agent cylinder, ready for instant actuation and is always protected from contamination. Stored- pressure wheeled extinguishers are cost effective and easy to maintain and service.

HIGH PERFORMANCE **Z-SERIES** WHEELED EXTINGUISHERS

756 P/N 27061

758 P/N 27063

759 P/N 27065

FEATURES

- Proprietary corrosion-resistant paint process
- Integral lift loops for loading/positioning on board
- Carriage design rests the agent cylinder and hose above ground for protection
- Chrome-plated brass shut-off ball valve with swivel pistol grip
- Separate 3" fill port with chrome-plated brass cap
- 1" x 50' field-repairable hose constructed with brass couplings
- Full fill regardless of the type of chemical used—no "nominal" fill sizes
- Large, easy-to-read pressure gauge with stainless-steel gauge guard
- Wide-footprint wheels at 36" x 6" for easy movement
- 12-Year Warranty

CONFORMS TO TEST STANDARDS:
CAN/ULC-S504 - UL 299 &

493 P/N 15505

125 & 300 lb. Direct Pressure–ABC, PURPLE K Dry Chemical

125 lb. Direct Pressure extinguishers utilize a 23ft³ nitrogen cylinder with a “quick-opening brass valve” to pressurize and completely discharge the agent cylinder. The compact size and 16" semi-pneumatic tires allow easy maneuvering and operation by one person, through narrow doorways and aisles. A 4" stainless-steel fill opening with rugged chrome-plated brass cap makes servicing easier. For large hazards, choose the 300 lb. ABC or Purple K Direct Pressure extinguishers with a “quick-opening” 55ft³ nitrogen cylinder. They provide quality and economical fire protection, large volume capacity for extra-high hazard areas with single-person transport and operation. The 36" X 6" wide steel wheels make movement possible in sandy or soft soil.

FEATURES

- Stainless-steel collars
- Chrome-plated brass fill caps
- Brass hose fittings
- Live swivels on discharge valve
- Heavy-duty steel cylinder, carriage, hose rack
- Lifting eyes
- UL/ULC label with QR code
- Large instruction pictogram
- DOT/TC nitrogen cylinder with quick-opening brass valve
- 6-Year Warranty

HALOTRON® I EXTINGUISHERS

B673 P/N 24757

FEATURES

- Brass hose fittings
- Live swivels on discharge valve
- Reflective stripes
- Integral lift loops
- Stainless-steel fasteners
- Heavy-duty steel cylinder, carriage, hose rack
- DOT/TC cylinders
- Lunette ring for pintle hook towing (B673 only)
- Stainless-steel gauge guard
- Quick-opening valves
- Chrome-plated brass valve
- UL/ULC label with QR code
- Large instruction pictogram
- EPA-approved “Clean Agent” for Class A, B, and C hazards
- Low GWP (Global Warming Potential)
- Low ODP (Ozone Depletion Potential)
- Short atmospheric lifetime
- Maximum visibility during discharge
- No thermal or static shock
- No electrical conductivity back to the operator
- 6-Year Warranty

CONFORMS TO TEST STANDARDS:

65 lb. & 150 lb.—Stored-Pressure HALOTRON® I

The Amerex Halotron® I extinguishers feature the same qualities found in all Amerex products and adds the convenience of a “clean” extinguishing agent. Halotron® I extinguishing agent has proven itself as the leader in the hunt for an alternative “clean” agent by being the only alternative “clean” agent to obtain FAA approvals for both ramp use (ARFF Vehicle) and on board an aircraft. Combining the quality of Amerex products with a proven alternative “clean” agent, the Amerex Halotron I® wheeled extinguishers offer you the best value in the industry.

SF 1230™ EXTINGUISHERS

Standard Fluids™ SF 1230™ Fire Protection Fluid

This extinguishing agent has a Global Warming Potential of 1 and an atmospheric life of just five days making it the long-term sustainable choice that also has the greatest margin of safety of any of the clean agents in the marketplace today.

FEATURES

- Environmentally friendly SF 1230™ Clean Agent (0 ODP - 1 GWP)
- Chrome-plated brass operating valve
- Heavy-duty steel cylinder, carriage, and hose hanger assembly
- DOT/TC Cylinders
- Lunette ring for pintle hook towing
- Pressure gauge protected by a stainless-steel gauge guard
- UL/ULC label with QR code
- Large instruction pictogram
- Operating temperature range: -40° to +120° F.
- 6-Year Warranty

CARBON DIOXIDE EXTINGUISHERS

50 & 100 lb. CARBON DIOXIDE

Large volume CO₂ protection provided in either 50 or 100 lb. (2-50 lb. cylinders) wheeled extinguishers. Rugged construction and easy to operate with a “quick-opening” ‘T’ handle valve and horn mounted shut-off valve. A logical choice in areas where a Class B:C non-contaminating agent is required and makes an excellent choice in settings that require a clean agent.

FEATURES

- Heavy-duty steel carriages
- Quick-opening brass valve
- Squeeze-grip chrome-plated discharge valve
- Reinforced wire-braided hose and shock-resistant horn to reduce static electricity
- Brass hose fittings
- UL/ULC label with QR code
- Large instruction pictogram
- DOT/TC cylinder with quick-opening brass valve
- Clean, non-contaminating odorless gas
- 5-Year Warranty

CLASS D EXTINGUISHERS

680R P/N 10897

681R P/N 10898

150 lb. Regulated Pressure SODIUM CHLORIDE / 250 Lb. Regulated Pressure COPPER POWDER

Two choices for large volume Class D (flammable metal) protection. Model 680 (Sodium Chloride) is effective on magnesium, sodium, potassium, and sodium potassium alloy fires. Model 681 (Copper Powder) designed specifically for fighting difficult lithium fires. Well balanced for quick transport on 36" non-sparking rubber tread steel wheels. Both are pressurized with Argon and regulated to a low 125 psi to avoid disrupting the burning materials.

FEATURES

- Stainless-steel collars
- Chrome-plated brass fill caps
- Brass hose fittings
- Live swivels on discharge valve
- Heavy-duty steel cylinder, carriage, hose rack
- FM label with QR code
- Large instruction pictogram
- DOT/TC argon cylinder with quick-opening brass valve
- Chrome-plated brass regulator
- Extension wand included (nozzle sold separately)
- 6-Year Warranty
